

THANK YOU FOR YOUR INTEREST IN SAVING A DOG'S LIFE!

Our rescue dogs are from shelters and we know little about their background or history. Although each dog is assessed and we work with them to deal with behavioral issues, we cannot make any guarantees regarding the dog's temperament or behavior. We try very hard to make a good match between adopter and dog and ensure that the dog is a good fit for your family and lifestyle, but it will also take commitment, dedication and work on your behalf to integrate your adopted dog into your family. Sometimes when people think that their dog has a problem, it is really because the people aren't doing the right things, and understanding that is the first step to solving the problem.

We ask that when bringing in new dog, you give the adoption a minimum 7 day trial to allow both you and the dog to adjust to the routine and circumstances in your home including both weekdays and weekends. Many adjustment issues occur after you have spent your weekend fussing over and spoiling your new family member, then when Monday morning comes around and everyone goes back to work or school, the new dog is left to its own devices and experiences stress and separation anxiety.

We also have a detailed application to adopt. The application is not designed to be nosy or invade your privacy, only to ensure that we make the best possible match for you. Some adopters also find the application helpful since it identifies potential issues that they may not have considered. Once you have submitted your application, we will be glad to arrange an appointment for you to meet our dogs.

Most of our dogs are boarded in downtown Los Angeles near the I10 freeway. Introductions are by appointment only and most are held on Saturdays between 10 a.m. and 2 p.m. We ask that if you have another dog or dogs, you bring them to the appointment to have the dogs introduced properly and check to see if the dogs will get along. We also have regularly scheduled adoption events which are posted on our website where you can come and see some of the dogs that are available for adoption.

Because Akitas are a hunting breed by nature, we cannot make any guarantees about how they will react to cats or other small animals. Some Akitas get along well with cats or can be taught to live with cats, however introductions must be completed carefully and an adjustment period must be expected. We have some tips available in the FYI section of our website and we also recommend that you read about the process of integrating cats and dogs. You must be aware of these issues and be willing to work with both animals before we can approve adopting an Akita to a home with cats.

We are an IRS approved non-profit charity and request a tax-deductible donation ranging from \$250-500 for each dog. Although this may seem high, please consider that purchasing an Akita from a breeder may cost anywhere from \$1000-\$3000 dollars. The donation covers medical care, spay and neuter surgery, vaccinations, microchip, and care for the dogs. We rely entirely on donations to continue our rescue work. Since a substantial amount of time and effort is put into the adoption process, the adoption donation is **NON-REFUNDABLE** after 30 days.

We don't give you this information to scare you or dissuade you from adopting a dog. We just want everyone to have reasonable expectations. We are happy to help you find your new canine companion!
